

Trappers

If you don't see a trapper on the list in your general area you can also try contacting one of our HUBS for Trapping assistance

Before you contact a trapper please note the following:

- Trappers trap for TNR; Trap, Neuter, RETURN. They do not permanently remove cats from an area.
- If you cannot find a trapper in your area see the HUBS section and check with the individual HUBS in your area for available additional Trappers not listed below.
- Trappers, listed below, will assist individuals who are inexperienced or in need of help.
- Trappers may transport cats to and from the Veterinarian, depending on your need. It may be necessary, and only fair, to reimburse them for their fuel expenses.
- Trappers can direct you to transport and pick up the cat, at the participating low cost Veterinarian, once the Trapper has caught the cat for you. Work this detail out, with the Trapper, ahead of time, after evaluating the drop off and pick up times from the individual Veterinarians.
- Trappers DO NOT pay the Veterinarian. You must give the Trapper a check or cash for payment of Veterinary Services, if they are transporting the cat on your behalf.
- Some Trappers may take the cats to participating Low Cost Veterinary services discuss this with them before hand.
- Trappers are Knowledgeable regarding feral and stray cats and TNR as a humane means to reduce their numbers. If you have questions or concerns, ASK.
